Reviews

It is one of the best books. Indeed, it really is a pleasure, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Sofia Yundt)

A HISTORY OF POLITICAL THOUGHT: FROM THE MIDDLE AGES TO THE RENAISSANCE: FROM THE MIDDLE AGES TO THE RENAISSANCE

John Wiley and Sons Ltd. Paperback. Book Condition: new. BRAND NEW PRINT ON DEMAND., A History of Political Thought: From the Middle Ages to the Renaissance: From the Middle Ages to the Renaissance, Janet Coleman, Janet Coleman's two volume history of European political theorizing, from the ancient Greeks to the Renaissance is the introduction which many have been waiting for. It treats some of the most influential writers who have been considered by educated Europeans down the centuries to have helped to construct their identity, their shared "languages of politics" about the principles and practices of good government, and the history of European philosophy. It seeks to uncover and reconstruct the emergence of the "state" and the various European political theories which justified it. This volume continues the story by focusing on medieval and Renaissance thinkers and includes extensive discussion of the practices that underpinned medieval political theories and which continued to play crucial roles in the eventual development of early-modern political institutions and debates. Throughout the author draws on recent scholarly commentaries written by specialists in philosophy, contemporary political theory, and on medieval and Renaissance history and theology. She shows that the medieval and Renaissance theorists' arguments can be seen as logical and coherent if we can grasp the questions they thought it important to answer. Janet Coleman strikes a balance between trying to understand the philosophical cogency of medieval and Renaissance arguments on the one hand, and on the other, elucidating why historically-situated medieval and Renaissance thinkers, respectively, thought the ways they did about politics; and why we often think otherwise. The volume will meet the needs of students of philosophy, history and politics, proving to be an indispensable secondary source which aims to situate, explain, and provoke thought about the major works of political theory likely to be...
