Resiliency has been defined as the ability to: Manage life's challenges, stresses, changes, and pressures effectively; cope and adapt successfully to adversity; bounce back to a balanced state after facing a major disruption in life or career. People have an innate ability to demonstrate resiliency when they have resiliency skills built into their lives. Resilient people are able to adapt successfully under adverse circumstances such as: poverty, mental illness, disasters, terrorism, physical or psychological trauma, divorce, job loss, prison, loss of a loved one, parent's divorce, prolonged stress, physical or sexual abuse, or a lack of safety. Resiliency, or a positive behavioral adaptation, is critical when people encounter any type of trauma. The Building Resiliency Workbook contains five separate sections to help participants learn more about themselves and how to build resiliency which will enable them to thrive in times of adversity, change and stress. They will learn about the importance of building resiliency skills to turn change and stress into opportunities and challenge, to live life zestfully, and to take positive actions in order to live their lives with less stress. All of the self-assessments, exercises and educational handouts are reproducible for the facilitator to use over and over again. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Spiral-bound.
